

## How to create a "Dream Book"

Use a photo album, scrapbook, 3-Ring Binder with sheet protectors etc. Cut out pictures from magazines, photos, flyers you created with tracking pages etc. to create your dream book.

### Words to ponder:

- The journey is the reward. If you are happy on the journey you will be happy when you reach your destination.
- If God is truly your business partner make REALLY BIG plans.
- Passion comes AFTER you start working.
- Discipline creates motion. Motion creates emotion. Emotion creates Motivation. (No one every accomplished anything if they 'waited till they were motivated.' Pacesetters is a checklist that creates discipline.)

### Front section~~ Dreams you are working toward:

What are your dreams? Think long-term and short-term. You always want have something that you are working toward within the next few weeks, otherwise discouragement sets in.

### Some questions to help you get started.

If money were no object:

1. Where would you live?
2. What kind of house would you live in?
3. Where would you travel?
4. Who would travel with you?
5. What would you do for your parents? Extended family?
6. What would you be able to do for you children? Grown children? Grandchildren?
7. Think in terms of health~~ exercise, massages, healthy organic food, etc.
8. It is certainly OK to put Mary Kay dreams such as your Star Prize, Car, Director Suit or NSD but it by no means should be your only dream.
